

BENCHTOP SHAKING INCUBATOR BSBT-2202

BENCHTOP SHAKING INCUBATOR BSBT-2202

BSBT-2202 BENCHTOP SHAKING INCUBATOR

- Large LCD screen to display more data at same time
- R134a refrigerant, imported compressor and fan motor
- Big observation windows
- 304 Stainless steel chamber and platform, easy to clean
- The parameters can be automatically stored in case of power failure, and it will continue run as presetting program after turn on
- Microprocessor PID controller for temperature and shaking speed with timing function

SPECIFICATIONS

Model	BSBT-2202
Speed Range	40-300 rpm
Electrical Requirement	220 V 50 Hz
Amplitude	26 mm
Display Resolution	0.1°C
Power Consumption	1050 W
Platform Dimensions	920x500 mm
External Dimension	1250Wx660Dx915H mm
Timing range	0~5999 min
